To whom it may concern,

I know [Name] since last year when he/she became a student of my [Course name] course. Being in charge also with [Course name] course and practical work activities and coordinating his/her final project for getting his/her Bachelor degree I had the occasion to directly supervise his/her work during a whole semester.

To the best of my knowledge, [Name] is an intelligent person, hard working and very motivated. he/she is able to find quickly the best solution for high complexity problems, he/she is involved in a series of programming projects and fields I have noticed that he/she has very good abilities in domains like Project Management and Analysis and Design and Economics.

Because of all these I have decided to coordinate his/her project which is called: "Managing IT projects using Enterprise technologies". This is a very interesting project using the latest technologies in the field. My decision was supplementary motivated by the abilities of [Name], like: quickly learning, working with very good results both alone and in a team and efficiently coordinating other person's work.

In my opinion, [Name] is a very good student, an intelligent and open person. With all these in mind, I warmly recommend [Name] attending the classes of your Master program.

Professor [Professor Name]

[Title]

[Institution]
